SUMMARY

As an Artificial Intelligence Engineer, I bring a wealth of expertise in data analysis, visualization, and the development of machine learning (ML) and deep learning (DL) models. With a strong command of natural language processing (NLP) tasks, I excel in fine-tuning Hugging Face models and leveraging their capabilities. My proficiency extends to working with Langchain, vector databases, and implementing Python automation to streamline AI tasks effectively. With a comprehensive skill set encompassing various facets of AI, I am equipped to tackle diverse challenges and drive impactful solutions in the field of artificial intelligence.

SKILLS

- Python (Pandas, NumPy, Matplotlib, Seaborn, BeautifulSoup, Scikit-Learn, TensorFlow, Keras, NLTK, Transformers and pipeline)
- Huggingface model fine-tune
- Langchain
- Vector Database
- Automation (Python-Selenium)
- MySQL
- Git & Github
- Web Technologies (HTML, CSS)
- OOP and DSA

EDUCATION

Bachelor Science of Software Engineering | UBIT-University of Karachi | 2024

CERTIFICATIONS

Supervised Machine Learning: Regression and Classification | Coursera | 2022

EXPERIENCE

Data Science Engineer | Arcana Info | February 2024 - Present

Data Science | Internsavy | July 2023 - October 2023
